Sub-Fund	Objective	Target Market	Customers' knowledge and experience	Customers' financial situation with a focus on ability to bear losses	Customers' risk tolerance and compatibility of risk/reward profile of the product with the target market	Synthetic Risk and Reward Indicator (SRRI)	Customers' objectives and needs	Customers who should not invest	Distribution channel	Legal Structure	Regulatory Framework
VT AJ Bell Cautious	The investment objective of the VT AJ Bell Cautious is to make a positive return over 5 years, however the size of gains (or losses) are likely to be limited by the requirement to remain within a certain risk profile. Over shorter periods the fund may lose value as it invests in securities that can go both up and down in price. It looks to achieve this by investing mainly in assets such as cash and bonds. It also has riskier holdings in company shares.	UK retail advised and non-advised digital investors	Designed for use by investors with at least basic knowledge of funds which are to be managed in accordance with a specific investment objective and policy	Investors must be prepared to accept fluctuations in the value of capital including capital loss and accept the risks of investing in capital markets, including having the ability to bear 100% capital loss	Due to the volatility of markets and specific risks of investing in units in a fund, investors should have a risk tolerance that is commensurate with the risk target of the fund in which they are invested	4	Investors in the funds should aim to be invested for the medium to long term; defined as at least five years. The funds are designed for investors that want to gain access to a fund managed according to the investment objective and policy of the fund	Those who: 1. Have no risk tolerance 2. Need a guaranteed income or portfolio return 3. Have low financial resilience 4. Have low financial capability, except where there is a financial adviser 5. Have a time horizon shorter than five years	Investment advice, non-advised sales and pure execution services	OEIC	UCITS
VT AJ Bell Moderately Cautious	The investment objective of the VT AJ Bell Moderately Cautious is to make a positive return over 5 years, however the size of gains (or losses) are likely to be limited by the requirement to remain within a certain risk profile. Over shorter periods the fund may lose value as it invests in securities that can go both up and down in price. It looks to achieve this by investing in different assets, with a preference towards cash and bonds, and a smaller emphasis on riskier investments such as company shares.					4
